

Is that the right place?

We put everything in the right place: properly separated waste can become a great resource.

It is important to correctly separate waste because it can be recycled and transformed into other products, limiting the use of raw materials.

how can we improve?

If everyone does their part we can **guarantee a better future** for our children by respecting the environment and avoiding wasting precious resources.

We ask your cooperation to further improve the quality of separate waste collection in the Municipality of Como.

The following pages contain every tip for excellent waste sorting!

ORGANIC WASTE

ORGANIC WASTE GOES IN THE BROWN CONTAINER

Kitchen waste must be inserted in the brown containers supplied.

WHAT TO PUT INSIDE:

raw and cooked kitchen scraps and leftovers, skins and scraps from fruit and vegetables, meat and fish scraps and bones, pasta and starchy foods, bread, rice, fruit pits, seeds, cut flowers, remains and leaves of indoor plants, shells (of eggs, walnuts, hazelnuts), tea and chamomile tea filters, coffee grounds, cork, ash (from fireplace and barbecue), napkins and used or dirty paper handkerchiefs with food residue.

WHAT NOT TO PUT INSIDE:

cuttings and prunings, garden

waste (grass, leaves, plant prunings), animal excrement, food packaging paper (greaseproof, laminated or with aluminium), cigarette butts, liquids, oil, chemicals, rags and wood.

Emptied
bi-weekly

PLASTIC

Emptied
weekly

PLASTIC GOES IN THE YELLOW BAG

Plastic packaging should be put in the yellow bags that are provided annually.

WHAT TO PUT INSIDE:

bottles of mineral water, milk, soft drinks and oil, bottles and dispensers for detergents, soaps and cosmetics, containers for sauces, creams, yoghurt and ice cream, food trays (made of PET, polystyrene and polypropylene), blisters packs and shaped casings, bags and sachets for pasta, crisps, sweets, vegetables and frozen foods (including those with a silver lining inside), nets for fruit and vegetables, transparent film, shopping bags, bags for gardening products, detergents and pet food, clothes

hangers, flower and plant pots used for sale and transport, materials for protection and transport of goods (film, bubble wrap, polystyrene chips), disposable plates and glasses (without food residue).

WHAT NOT TO PUT INSIDE:

toys, trainers, plastic slippers, mats, plastic furniture and products, DVDs, CDs, cassettes and videotapes, photographs and photographic films, pens, umbrellas, disposable razors, jerry cans and buckets.

REMEMBER: empty, rinse and/or clean and crush containers.

GLASS AND CANS

GLASS AND CANS GO IN THE GREEN CONTAINER

Glass and cans must be placed in the special green containers provided.

WHAT TO PUT INSIDE:

bottles, glasses, jars, glass vases and jugs, trays and containers to store and freeze food, tins and tubes for food, cans for drinks and liquids, aluminium foil, jars, metal hangers, metal caps, spray cans not labelled with danger symbols and coffee pots.

WHAT NOT TO PUT INSIDE:

ceramic plates and cups, incandescent and energy-saving bulbs, neon tubes, mirrors, glass ceramic (pyrex) or ceramic containers, crystal glasses and objects, plastic bags and spray cans labelled with danger symbols.

Emptied
weekly

REMEMBER: empty, rinse and/or clean and crush containers.

PAPER

Emptied
weekly

PAPER AND CARDBOARD GO IN THE BLUE CONTAINER

Paper and cardboard should be placed in the special blue containers provided.

WHAT TO PUT INSIDE:

newspapers, notebooks and magazines (without adhesive, metal or plastic parts), Tetra Pak containers (milk, fruit juices and other drinks), paper bags, cardboard trays and boxes for food, cardboard packaging for toys and clothing, and pizza boxes without food residue.

WHAT NOT TO PUT INSIDE:

dirty food paper, chemical fax paper or carbonless paper, tax receipts, baking paper, laminated tickets for public transport, cellophane wrap, pizza cartons with food residue and plastic bags.

DRY WASTE

UNSORTED WASTE GOES IN THE TRANSPARENT BAG

All waste that cannot be recycled should be put in the transparent bags that are provided annually.

WHAT TO PUT INSIDE:

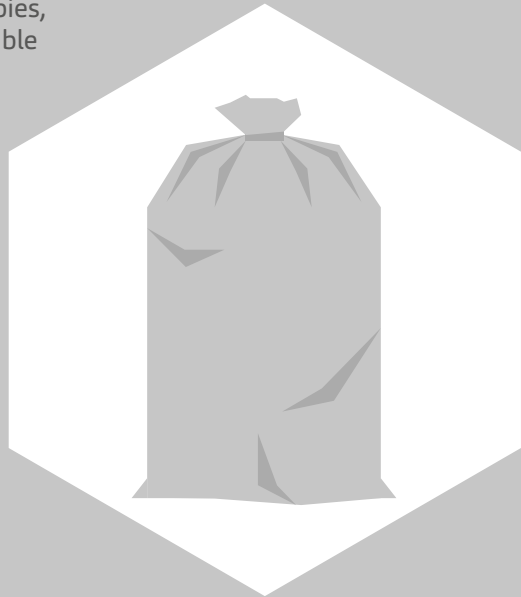

dirty, oiled and sand paper, broken dishes and general ceramics (limited quantities), small non-electronic plastic toys without batteries, CDs, DVDs, cassettes and videotapes, filters and bags for vacuum cleaners, nappies, sanitary pads, plasters, disposable razors, cigarette butts.

WHAT NOT TO PUT INSIDE:

batteries, oils, medicines, containers and hazardous materials (glues, paints, solvents, insecticides), energy-consumption lamps and neon lamps.

Emptied
bi-weekly

...and all the rest?

There is a correct place for every type of waste, including your grandmother's old sofa and television remote batteries.

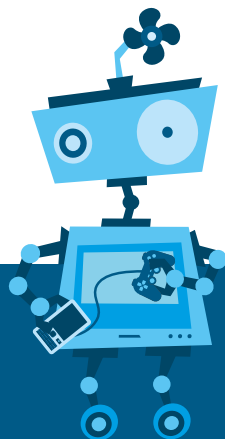

MUNICIPAL COLLECTION CENTRE in Via Stazzi

You can bring all reusable waste to the municipal Collection Centre, along with all waste that is considered dangerous, for which separate collection is mandatory:

- bulky waste
- glass, sheet glass, wood
- vegetable or mineral oils and fats
- batteries and toner

- energy-saving and neon light bulbs
- cuttings and prunings
- expired drugs
- clothes
- demolition waste (from minor building maintenance operations)
- labelled products and containers for hazardous materials**
- paints
- WEEE*
- tires
- ferrous materials

* WEEE
All appliances

and technological products, of every type and size, which need an electric plug or batteries to function. For example: refrigerators, washing machines, televisions, computers, monitors, mobile phones, cameras, video games, MP3 players, clothes irons, hair dryers, blenders, vacuum cleaners, etc.

WARNING: if not disposed of correctly WEEE items are a source of serious pollution in the air, water and soil.

Collected electrical and electronic waste should be delivered to various consortia for material recovery

You can also request a collection from home, by appointment. Collection is free of charge. Payment is only required for transport.

To book:

- call the toll-free number 800 437678, from Monday to Friday from 8.00 to 20.00 Saturdays and holidays from 8.00 to 15.00.

OPENING HOURS

From Tuesday to Friday	8.30 - 14.00
Saturday	8.30 - 12.00 13.30 - 17.00
Sunday	8.30 - 12.00
Monday	CLOSED

Access to the Municipal Collection Centre is free of charge for all residents with an Ecopass Card.

** Hazardous waste containers display these symbols:

TOXIC

fly sprays, acids, thermometers, bactericides, glazes, ice sprays, rat poison, herbicides, insecticides, caustic soda and disinfectants.

IRRITANT

bleach, ammonia, trichlorethylene, nitro and synthetic paints, white spirit, car detergents, stain removers, glues, bodywork paints, putties, thinners and adhesives.

FLAMMABLE

spray cans, stain removers, solvents, anti-rust coatings with zinc, glues, enamels, nitro and synthetic paints, anti-fog agents, thinners, furniture polish, ethyl alcohol for liqueurs and bodywork polishes.

CORROSIVE

batteries, acids and products to unblock pipes.

To donate your used clothing, you can use the **yellow containers** found on some city streets.

In Como, a contractor empties them weekly and handles the reuse of clothes and shoes.

Clothes should be clean and in good condition. Damaged material can still be inserted because it will be recycled.

USED CLOTHES

BULKY WASTE

For the disposal of heavy or large household waste such as furniture, mattresses and furniture items, you can **request a home collection service**.

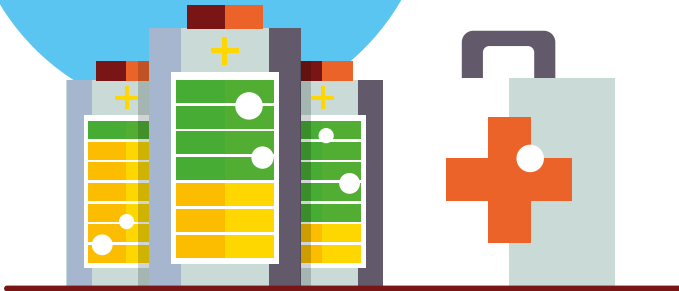

To book:

- call the toll-free number 800 437678 from Monday to Friday from 8.00 to 20.00 Saturdays and holidays from 8.00 to 15.00.

Collection is free of charge. Once the collection is booked, waste for disposal must be put out in the street or on the pavement. We do not organize clearouts of basements, attics and other rooms.

BATTERIES AND DRUGS

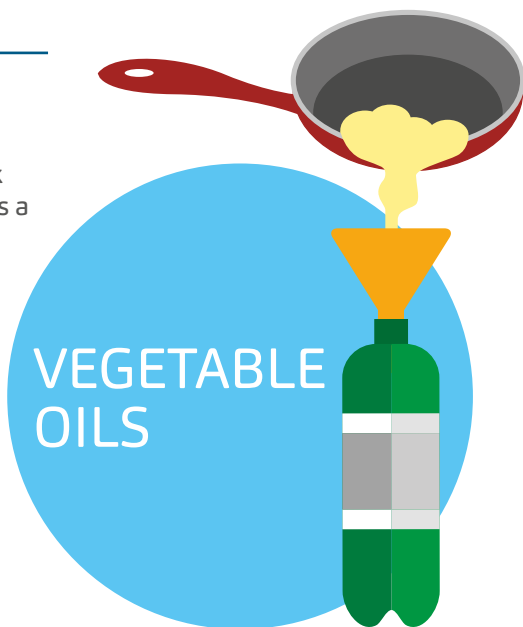

Used batteries should be discarded in the special containers distributed in commercial establishments. Expired drugs should be thrown in the appropriate containers distributed in city pharmacies and chemists. Alternatively, batteries and drugs can be brought to the Municipal Collection Centre.

Cooking oil, if poured into the sink or dispersed in the environment, is a cause of pollution.

Pour used vegetable oil, once cooled, into plastic bottles and take it to one of the collection containers in the city (you can find the list on the www.apricaspa.it website) or at the Municipal Collection Centre in Via Stazzi.

It will be recovered and reused to produce fuels and lubricants.

We can only give waste a new life if we separate it correctly.
Did you know that...

...with 37 cans you can make a moka pot

...a new glass bottle can be made from 7 glass jars.

...kitchen waste creates a soil that can be used for growing plants and flowers

...a watering can can be made from 5 plastic bottles

Where should I DUMP It?

You can find all the information on the separate waste collection system on the www.apricaspa.it website. You will be able to access the following features on the site:

- local services
- where should I dump it

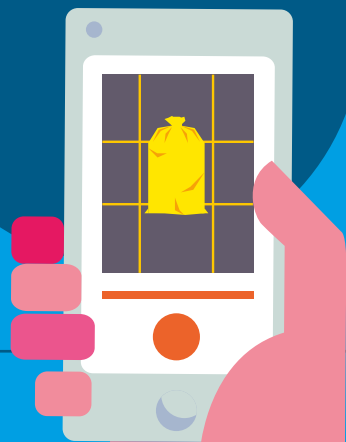

THE APP FOR SMARTPHONES AND TABLETS

PULlamo is an app to inform Como residents about how to correctly dispose of waste and to keep the city clean by communicating directly with Aprica.

This way, for example, you can report the presence of abandoned waste, illegal dumping or full bins, photographing them and sending the report to Aprica.

Additionally, you can find out the schedules for collections and street sweeping.

PULlamo

Download **PULlamo**, the app that helps you correctly separate waste and keep the city clean.

This guide contains
useful information for
**correctly treating and
disposing of
waste**

**for any doubts
and for more information:**
